

The Ultimate Projector Lamp Guide

The following guide lists all motion picture projectors known to FCRC and the appropriate replacement lamp that was designated by the projector manufacturer.

All projection equipment manufactured by or distributed by one company is grouped by type, application and model number/name under the company name. In some cases, you may know only the brand or model name, rather than the manufacturer name. See the [Manufacturer Cross-Reference Index](#) for a list of brand model names cross-referenced to manufacturer name.

Many of the projector models listed in this section are no longer manufactured. In some cases, where the specified replacement lamps are also no longer available, consult the FCRC [Lamp Specification Engine](#) for lamps that may be substituted when requested.
